Dear Mr. Rosenberg:

This letter is to inform you that the settlement reached in the *Porter v. European Car Service* was recently funded on about June 25, 1998. As you know, this case involved complex issues of law and fact because it was a workers compensation case in civil court. The case was most difficult to resolve because the defendant was uninsured and extremely reluctant to part with personal funds. I was extremely impressed that you were able to obtain a settlement in the case. In fact, prior to the mediation I felt that our chances of settling the case were close to zero.

In addition, you were thorough enough to require that the parties sign a written settlement agreement pursuant to California Code of Civil Procedures Section 664.6. Unfortunately, for reasons unconnected with your involvement my office was forced to resort to that code section to obtain payment. I am happy to give you my highest possible recommendation and would not hesitate to use you again in the future.

Thank you for your courtesy and cooperation.

Sincerely,

Jonathan Brand
